
Our congregation is currently seeking ways to creatively and effectively minister to recession-oriented needs in our church and community. One of several initiatives being developed is a "Skills Bank." The Skills Bank is a database which will catalogue all the various skills, abilities and talents within our congregation. By taking some time to complete this survey, you are helping your church become better organized to serve. Simply respond to the questions below, and drop this insert into the offering plate, return it to your Sunday School department or, if you need more time, you may also submit this form to the church office at your convenience.
